# Release Notes for ETM<sup>®</sup> System v5.2 Collection Server Update

### Who Should Install This Software

ETM<sup>®</sup> System v5.2 Collection Server Update is recommended for all customers running v5.2 software with the Call Recorder. To obtain the update, visit <http://support.securelogix.com/updates/index.htm>.

### About This Document

This document contains important information about ETM System v5.2 Collection Server Update. The ETM System includes the ETM Communications Appliances, ETM Server software, and the ETM applications: the Performance Manager, the Voice Firewall, the Usage Manager, AAA Services for the Voice Firewall, the Voice IPS (Intrusion Prevention System), and the Call Recorder.

### Issues Addressed in this Update

- 6673 – Buffer overrun prevented when connect to CRC is broken during handshake.
- Message buffer memory leak results in file upload interruption.
- Excessive open file error condition results in upload interruption.
- Simultaneous connections from same CRC result in socket errors on original connection.
- Active connections not correctly aborted during Collection Server shutdown.
- Remote socket closure after partial file upload not always handled as an error condition.

### Current Version as of Collection Server Update (*\*New in 5.2 Collection Server Update*)

<b>ETM Collection Server Software</b>
Build 11*

**Last Update:** 10/10/2007
