

# SecureLogix Response to Apache Log4j Vulnerabilities CVE-2021-44228, CVE-2021-45046, CVE-2021-45105, and CVE-2021-44832

## Background

On December 09, 2021, SecureLogix became aware of recently disclosed security issues in Apache Log4j, a logging tool widely used in consumer and enterprise apps, cloud services, and websites. Other security issues have since been disclosed. These issues are identified as [CVE-2021-44228](#), [CVE-2021-45046](#), [CVE-2021-45105](#), and [CVE-2021-44832](#).

SecureLogix has determined that some versions of the PolicyGuru<sup>®</sup> Solution are using a version of log4j that could be affected by these vulnerabilities. The ETM<sup>®</sup> System is not affected.

It is important to note that SecureLogix products do not use log4j features associated with the specific vulnerabilities; therefore, we believe the risk to our customers is extremely small. However, SecureLogix will address these vulnerabilities in accordance with [CVE-2021-44228](#), [CVE-2021-45046](#), [CVE-2021-45105](#), and [CVE-2021-44832](#).

## Steps SecureLogix is Taking

- SecureLogix released a patch for PolicyGuru v2.6 on Friday, December 17, 2021, that addressed the first two CVEs, and released an updated patch that also addressed CVE-2021-45105 (which was disclosed after that date) on Tuesday, December 21, 2021. SecureLogix released an updated patch that also addresses CVE-2021-44832 on January 21, 2022.
- SecureLogix released a patch for v2.5 on Monday, December 20, 2021 that addressed CVE-2021-44228, CVE-2021-45046, and CVE-2021-45105. SecureLogix released an updated patch that also addresses CVE-2021-44832 on January 21, 2022.
- SecureLogix released a patch for v3.0.2 on January 20, 2022 that addresses CVE-2021-44228, CVE-2021-45046, CVE-2021-45105, and CVE-2021-44832.

Updates on this issue are also provided at <https://support.securelogix.com/kb/securelogix-response-to-apache-log4j-vulnerability/>.

## Supported PolicyGuru<sup>®</sup> Solution Versions

Supported versions are PolicyGuru v2.5.x, v2.6.x, and v3.0.2.
